PROFESSIONAL SUMMARY

A highly versatile and multidisciplinary professional with a robust technical foundation in Full-stack Web and Android Development , coupled with proven success in marketing and business development. I specialize in bridging the gap between complex technical systems and strategic business goals, demonstrating an exceptional ability to adapt to diverse roles ranging from Software Engineering and Cybersecurity to Data Analytics and Marketing. With a fast learning curve and a hands-on approach to problem-solving, I have successfully managed critical judicial infrastructure at the Nyeri Law Courts and led institutional growth initiatives through customer-centric roles at Dedan Kimathi University.

CORE COMPETENCIES

Software & Android Development

- **Full-Stack Development:** Proficient in creating responsive, user-centric applications using HTML, CSS, JavaScript (Frontend) and Python, Java, C/C++, and PHP (Backend).
- **Mobile Development:** Experienced in Android software stacks, including layout architecture and SQLite database integration.
- **SEO Customization:** Skilled in tailoring Standard Operating Environments to meet specific organizational and security requirements.

IT, Data & Cybersecurity

- **Network & Systems:** Expertly trained in Cisco Routing, Arista technologies, and Unix/FreeBSD system administration.
- **Data Analytics:** Conversant in extracting insights using Python, Excel, Power BI, and SQL database management.

- **Cybersecurity:** Certified knowledge in network security, phishing prevention, and data protection measures.
- **Hardware:** Comprehensive hardware maintenance, troubleshooting, and basic automation/control systems (PLC/SCADA).

Marketing & Customer Experience

- **Client Relations:** Professional background in front-desk operations, responding to high volumes of calls, emails, and messages, and managing complex filing systems.
- **Business Growth:** experience in B2B sales, lead generation, and client engagement.
- **Graphic Design:** Specialized in promotional content and poster design to drive brand visibility.

TECHNICAL SKILLS

- **Web Development:** HTML5, CSS3, JavaScript, React, Bootstrap, Node.js, Express, PHP
- **Mobile Development:** Android SDK, Layout Architecture, SQLite, SEO Customization
- **Graphics Design:** Canva, Adobe Photoshop (Posters, and Branding)
- **Data Analysis:** Microsoft Excel , SQL (MySQL), Python (Pandas, NumPy), Power BI
- **Networking:** Cisco Routing & Switching, Arista EOS, Network Security Monitoring
- **Systems Administration:** Windows, Linux (Ubuntu,)FreeBSD/Unix
- **Automation & Industrial Tech:** PLC , SCADA Fundamentals, Sensors and Actuators
- **Marketing & Operations:** CRM Management, Odoo ERP, Google Workspace
- **Version Control & Tools:** Git, GitHub, Microsoft Office Suite

---

EDUCATION**Bachelor of Science in Information Technology**

Dedan Kimathi University of Technology, Nyeri, Kenya

Relevant Coursework:

Software Engineering

Web Application Development

Mobile Application Programming (Android)

Operating Systems (Unix/FreeBSD, Windows, Linux)

Data Science & Machine Learning

CERTIFICATIONS

- Cybersecurity Certification
- Data Analytics Certification (ICT Authority)
- Networking with Linux Essentials (Cisco)
- Operating Systems (Cisco)

WORK EXPERIENCE

ICT Technical Assistant | Nyeri Law Courts

- **Infrastructure Management:** Maintained local IT infrastructure with 99.9% availability for critical judicial systems.
- **Digital Transformation:** Led the transition of sensitive physical legal records into searchable, encrypted digital formats.
- **System Administration:** Managed and optimized the Real-Time Case Tracking System (CTS), facilitating digital filing and case scheduling.
- **Technical Support:** Resolved complex Tier 1 and Tier 2 connectivity and hardware issues for judicial staff.

Customer Service & Marketing Associate | Dedan Kimathi University

- **Front Desk Operations:** Acted as the first point of contact, expertly managing incoming calls, emails, and visitor inquiries to ensure professional service delivery.
- **Administrative Support:** Managed rigorous filing systems and correspondence, maintaining high levels of organizational efficiency.
- **Strategic Sales:** Successfully managed B2B sales cycles, identifying client needs and expanding the university's service reach.
- **Promotional Content:** Produced graphic design materials to support institutional marketing and recruitment efforts.

Sales & Credit Officer | Jafari Credit

- **Lead Generation:** Drove business growth through targeted sales outreach and remote marketing strategies.
- **Administrative Support:** Conducted financial data analysis and managed sensitive client documentation.

CAREER INTERESTS

- Full-Stack Web & Android Development
- Cybersecurity & Digital Forensics
- Network Architecture & Security
- Unix/FreeBSD System Administration
- Cloud Computing & DevOps
- Data Analysis & Business Intelligence
- Artificial Intelligence & Machine Learning
- Automation Engineering & Industrial Control
- Health Information Technology (HealthTech)
- FinTech & SaaS Implementation
- Digital Transformation & Digital Archiving
- Data-Driven Technical Strategy
